

# New lighting installed at MTS

Module Truck Systems, Inc. recently installed new shop lights custom engineered by Energy Solutions of Texas.

Sustainable:

Our lighting project helps to decrease air pollution and environmental damage by the following amounts **EACH** year:

<b>CO2 Removed (tons)</b>	<b>82.1</b>
<b>Acres of Trees Planted</b>	<b>22.7</b>
<b>Gallons of Gas Saved</b>	<b>10,191.5</b>

Lifecycle Savings:

Based on a fixture life of 20 years, our custom solution will deliver lifecycle energy savings of:

**\$187,640**

MTS is proud to give back to the land that has supported us for many years. Thanks for all your support!

Pictures to be posted soon!
